Kicukiro

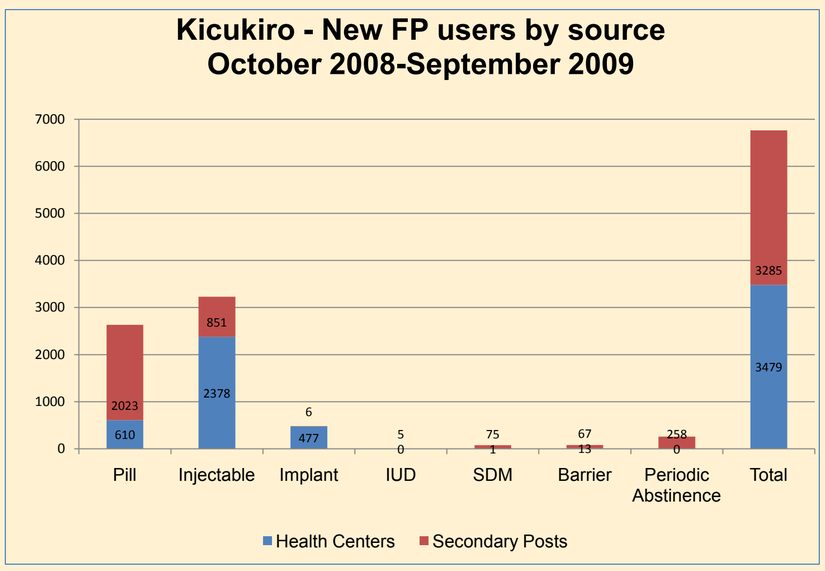
Population: 252,137
Kanombe District Hospital
10 sectors; 7 Health Centers; 4 FP secondary posts

District Incentive Fund Highlights

- Updated taxpayers database
- Family planning outreach services
- Planning and budgeting with development of five-year District Development Plan, planning processes, production of action plan and budget, revision of the Medium-Term Expenditure Framework
- Construction of public latrines and rainwater catchment systems
- Medical equipment for health centers
- Income-generating activities for PAQ teams.

Community-provider partnerships

Sister Gorietti, the manager of Masaka Health Center, in 2008 shared with one visitors how her strong PAQ team has benefitted the health center. "*The PAQ approach has made my work a lot easier, and also made me proud of the good work and great results. We no longer have any problems in mobilizing our communities for immunization, antenatal care visits or other services.*"



Expanded FP Access through Secondary Posts

To help meet the FP needs of clients of faith-based facilities, Twubakane has worked since 2005 with the Ministry of Health, districts and sectors to establish family planning secondary posts near faith-based facilities. In Kicukiro, 49% of new clients in FY09 (or 3285 of the 6764 new users) received their method from a secondary post.

> *Before we had the secondary posts, many couples in our district did not have somewhere to go even for counseling on modern methods; only a few couples were buying contraceptives in private clinics. The secondary posts have increased access to services for all our people,*
>
