Facility-based Deliveries Up, Maternal Mortality Down

Twubakane has worked in close partnership with Rwamagana District to support training in focused antenatal care and emergency obstetrics and neonatal care, as well as campaigns to mobilize the community to use these services.

“ According to our statistics, 86.5% of our mothers had delivered at health centers and hospitals by the end of June 2007. We also have reduced tremendously maternal and child mortality rates in our district ”

– Emile Gasore, in charge of health for Rwamagana District
